- Written in C++, aspects based off FTL Faster Than Light & Spelunky
- Designed by me, coded by team of 3 students and I
- Halted for now, backed up on AUT SVN server

Jack Boyd

CURRICULUM VITAE

PERSONAL STATEMENT

I am a young computer science graduate, who is looking to make an impact in the workplace and use my drive to create complex products of the highest quality. I am good at problem solving and enjoy building new skills to further my knowledge in software development industry. I consider myself friendly, social, punctual, ambitious, and a team player. I love working in a variety of situations and environments, and love having my skills challenged and performing well in high pressure situations.

WORK EXPERIENCE

Web Developer

2018-Present

Phil Vialoux, System 7

Using Umbraco, Bootstrap HTML Templates, and PetaPoco ORM, I create quality websites for clients. I am learning the full process System7 goes through from a blank Umbraco document / bootstrap template, to a fully functioning, high quality website for satisfied clients.

OurHouse Volunteer Work

2017-Present

OurHouse Team

Bar Staff

2016-2017

Impala

EDUCATION

Bachelor of Mathematical Sciences (BMSc)

2015-2017

Computer Science Major, AUT (Auckland University of Technology)
